This Is The Way It Was

This monthly photo column by Ken Murdock features railroad scenes of the past, a look back into railroading's history.

ACL's coach-Pullman *Champion* from New York City, with E3A 500 on the point, was on the FEC in Miami in 1941. All ACL Miami bound trains ran over the FEC from Jacksonville until the FEC strike of 1963. The locomotive was from the West Coast *Tamiami Champion* but was leading the East Coast *Champion*. This illustrates why train names were soon deleted from the locomotives. In 1949 the *Champion* was officially renamed the *East Coast Champion*. - Sam Appleby photo, CFRHS collection

ACL's all Pullman *Miamian*, train 8, was at FEC's Miami depot in 1941, preparing for its departure to New York City. FEC and ACL cars can be seen mixed in the consist. FEC, RF&P and PRR contributed cars to the consist in proportion to their main line miles of the total trip. - Sam Appleby photo, CFRHS collection

ACL's *Champion* with FEC round-end, tavern-observation *Biscayne Bay* bringing up the markers, was running under the wires on the Northeast Corridor, and no doubt, there is a Pennsy GG-1 on the point. What class!! This car was purchased by the SAL after the FEC strike and became their 6607. Sam Appleby photo, CFRHS collection

June 2017 Museum Report

By Ken Murdock, Museum Curator

June 7, our first Wednesday workday of the month, we had 5 members and 2 nonmembers participating. Members included Al Sharp, Jerry & Ginger Honeter, Irv Lipscomb and me. Nonmembers included Jake Baker and his younger brother Caleb.

Jake had helped us on two previous Wednesdays and I told him that if he returned, he could prime-paint the ceiling in the new meeting room. He not only returned, he brought his brother along to help. They primed the entire new meeting room ceiling except for a few perimeter panels yet to be installed. Jake is an unemployed Afghanistan war veteran. His brother, Caleb, works for Publix and they are both non-railfans wanting to do volunteer work.

Prior to working on inventory that we had started the week before, Al and I had to finish attaching the recently installed plywood ceiling panels before our volunteer painters painted them. Paint would have made it more difficult to see where screws were missing. Afterwards, we returned to working on inventory. This inventory work involves items from the Jacksonville collection that Phil Cross had acquired for us several months ago. This collection included the large Pullman Office sign that everyone has seen plus a Baldwin locomotive builder's plate, several hand lanterns, several rare locks including one from the Florida Southern, seven pieces of dining car silver service and quite a few pieces of china, some quite rare. Phil bought it right and these pieces will make great additions to our museum.

Irv also worked on inventory while Jerry continued to move more books into the new library. Moving involves assigning a new shelf number to each book as it is placed in its new location. Ginger finished polishing all the silver in our collection last week and I brought her about 7 more pieces, from our recently acquired collection, to be cleaned. They were so black that they didn't look like silver, but she brought them back to a bright shine.

On Wednesday, June 14th, we had a great turnout with 7 members and one nonmember coming to work. Members were Al Sharp, Phil Cross, Irv Lipscomb, Jerry & Ginger Honeter, Roger Wilson and me. The nonmember was Jake Baker who has continued to return and help us. Al, Phil and I finished installing the perimeter ceiling panels in the new meeting room and Jake primed them. Irv worked on inventory and Roger helped Jerry in the library. After lunch Jerry and Phil went to Lowes and bought a truck load of 2x4 wood studs for perimeter wall framing of our new meeting room. Ginger worked in the showcases and hosted in the afternoon.

Saturday, June 17th, was our monthly museum workday and we had the best turnout that we've had in quite a while, with 10 members participating. They included Phil Cross, Jarrod Reynolds, Allen Quinn, Jerry & Ginger Honeter, Phil Piet, Joe Lehmann and I, plus two new members, Laura Kelly and Al Butler.

Allen Quinn and Ginger took care the inside housekeeping chores while Phil Cross cleaned up around the outside, Then Ginger, Phil Piet and Laura worked on the collection, cleaning showcases and polishing silver. Jerry worked in the library, moving more books to their new home with some help from Al Butler. Joe got one printer working wirelessly with our computers which we now use for inventory which is being done in the Roper Building. Allen Quinn, Al Butler, Jarrod Reynolds and I raised new perimeter stud walls in the Roper Building while Phil Cross de-nailed old lumber and kept the mess cleaned up that the rest of us were making.

Wednesday, June 21st, we had a good turnout with 7 members participating who included Al Sharp, Phil Cross, Roger Wilson, Irv Lipscomb, Jerry & Ginger Honeter and I. Al, Phil and I continued installing wood studs in the new meeting room while Jerry and Roger continued moving books to the new library. Irv worked on inventory in the flat files while Ginger cleaned the showcases and worked on the collection. **Con't. on Page 4.**

Three compartment cars of the Ringling Bros. Barnum Bailey Circus train were delivered to the South Carolina Railroad Museum (SCRM) on June 20th. An animal car is in Jacksonville, waybilled to Rockton (SCRM), and should be delivered soon.

The Ringling Brothers cars were pulled onto the Museum's mainline during a pretty heavy downpour. Museum staff had a chance to quickly walk through them just to see what they have. Overall they are in good condition and a professional cleaning company cleaned two of the cars--one still needs some work. The cars were used as compartment cars for the performers and workers. The Museum has a 3-compartment car, a 5-compartment car and an 11-compartment car. Almost all of the appliances, bedding, etc. is still on the cars along with assorted other items.

Here's some information on the three RB&BB cars at Rockton: #42021 — Built by Pullman 1950. Became UP car #5440. Bought by Amtrak in 1971. #42007 — Built by Pullman in 1950. Became UP car #5414. Bought by Amtrak in 1971. #40012 — Built by ACF (American Car and Foundry) in 1954. Became UP "Alpine Scene".

Historical note: RB&BB bought two cars from the Seaboard Air Line. They were part of the "Blue Train". Car numbers were: #190 "Pinehurst, and #170 Cedartown.

Editor's Note: The above picture and information was provided by Former Member Frank Brubaker who volunteers at the South Carolina Railroad Museum.

Museum Report—Continued From Page Two

The last Wednesday of the month, June 28th, I couldn't make it but we had 5 faithful members who did. They included Phil Cross, Jerry & Ginger Honeter, Roger Wilson and Irv Lipscomb. Jerry and Roger continued moving books from the old library to the new library. Irv Lipscomb worked on inventory in the flat files while Ginger took care of the displays as usual. Phil vacuumed the new meeting room and then helped Irv, Jerry and Roger as needed. I worked at home building a much needed four-foot-long library shelf needed to fill out the library.

We wrapped up another very good month with much progress having been made in our effort to construct the Roper Building expansion using our volunteers. Thanks to each of you who came out and volunteered in some way by hosting, doing chores at home or at work sessions. We couldn't do it without your help!
